#### 2.1. Procedure

Title: New competition, procurement of power for network loss and delivery obligation, balance manager

Description: The competition is for the delivery of electricity to cover the network loss and the obligation to deliver with balance sheets. The procurement's value is estimated to: NOK 71,000,000 excluding VAT per annum. The volume is an estimate and is not binding for the contracting authority. See the procurement documents for further information. This procurement is considered to have an immaterial impact on climate and the environment, cf. the Regulations § 7-9, fifth paragraph. The justification for this is that the procurement, besides the procurement of electricity, concerns the procurement of consultancy services/consultancy services where the contracting authority has been cut off from affecting climate and environmental impact, as the requirements and criteria targeting these elements will not have sufficient connection to the delivery, cf. DFØ's environment supervisor. The contracting authority has assessed the procurement against the apprentice regulations, cf. the Procurement Act § 7, and concluded that there is no requirement for apprentices in this procurement, as the contract's main element does not include work where it is relevant to use labour with vocational certificates, cf. the apprentice regulations § 6 (3).

Procedure identifier: c472c026-4982-46f0-9cf6-f350a1c205dc
