Notice Details

Notice Type: Invitation for Bids
Bidding Type: International Competitive Bidding (ICB)
Notice No.: 128439591
Deadline: 2026-03-17

Description

Description: Delivery, ready-to-use assembly and commissioning of two gas-insulated 123 kV expansion panels on an existing SF6 gas-insulated 8DN8-5 123 kV switchgear (GIS). The existing switchgear is to be expanded on both sides, with a transformer field on the right and an overhead line field on the left. The associated on-site control cabinets are also part of the tender. Project communication must be carried out both in writing and orally in German.

Rated voltage: 123 kV,

Rated frequency: 50 Hz,

Rated operating current: 2,500 A,

Rated short-time current: 40 kA (3 s)

Rated voltage: 123 kV,

Rated frequency: 50 Hz,

Rated operating current: 4,000 A at possibly reduced standard temperature (<40°C),

Rated short-time current: 40 kA (3 s),

Use of low power instrument transformer (LPIT),

GWP < 1

Contract Type: : Supply

dispatch_date: 2026-02-06 00:00:00

lot_details: 1: Delivery, assembly and commissioning of expansion switch panels to existing gas-insulated 123 kV switchgear (GIS)
