

## Organisation Details

**Organization Name:** ОБЩИНА КЮСТЕНДИЛ  
**Country:** Bulgaria  
**Contact Person:** Десислава Капланова  
**Address:** пл. "Велбъжд" №1 гр. Кюстендил ,  
**Contact Details - Email:** ob\_porachki@kyustendil.bg  
**Phone** +359 78550815

## Notice Details

**Notice Type** Invitation for Bids  
**Bidding Type** International Competitive Bidding (ICB)  
**Notice No.** 128735072  
**Deadline** 2026-02-28

**Description** Description: The following activities are included in the scope of this public procurement for each of the specific positions:  
Activity 1 – preparation of an investment project in the technical project phase;  
Activity 2 – implementation of SMR /construction and assembly works/ according to the approved investment project;  
Activity 3 – exercising author supervision during construction.  
The full scope of activities for each of the individual positions is specified in the Technical Specification, which also serves as a Design Task for awarding the Investment Project.  
Due to the nature of the project and the specifics of the activities, the contracting authority (municipality) is a different person from the owners of the object of intervention, performing the assignment under the concluded contract.  
The procuring entity has limited the "maximum number of individual items" for which one participant can submit a bid, namely to two. The reasons for this are dictated by several factors. First of all, limiting the number of OPs in which a participant can participate implies greater competition and the admission of more economic entities, i.e. promoting competition. Next, the successful completion of construction will be ensured, which is a requirement for "Just Transition". The measure is lawful and provided for in Art. 46, para. 4 of the ZOP, having corresponding advantages over the possibility to limit "the number of individual positions that can be awarded to one tenderer". With the chosen approach, there is more real competition insofar as the risk of refusal to conclude

a contract is minimized due to the winning of another separate position, which places the Employer, who "acts on behalf of the condominium" in a situation of relative dependence on the will of the contractor.

Contract Duration: : 210 DAY

Contract Type: : Works

dispatch\_date: 2026-02-12 00:00:00

lot\_details: 1: "Introduction of energy efficiency measures, engineering - design,
