1.1. Buyer

Official name: Centre for development of the South-East planning region

Email: southeastregion@rdc.mk

Legal type of the buyer: Body governed by public law, controlled by a central government authority

Activity of the contracting authority: General public services

2. Procedure

2.1. Procedure

Title: Supply of equipment – EV Chargers

Description: The contract concerns the supply, delivery, installation, connection, testing and commissioning of six fast electric vehicle (EV) **charging stations** in the SouthEast of North Macedonia, to be installed in the municipalities of Strumica, Gevgelija, Valandovo, Radovish, Dojran and Novo Selo. The **charging stations** shall be supplied in accordance with the technical specifications defined in the tender documentation and shall fully comply with all applicable EU safety, technical and performance standards. Each **charging station** will be mounted on an appropriate concrete foundation and connected to the electrical grid, including all necessary civil, electrical and auxiliary works required for full operational readiness. The scope of the contract includes, but is not limited to: • Supply, delivery and installation of the EV **charging stations** with the technical characteristics defined in the tender specifications; • construction of foundation bases for each **charging station**; • electrical connection works, including cable lines, disconnection boxes and all required protective elements; • installation of vehicle stop elements and vertical and horizontal traffic signage and markings related to the **charging points**; • testing and commissioning of the installed equipment to ensure safe and proper operation. The contractor shall also provide training for designated local personnel on the operation and routine maintenance of the **charging stations**, as well as warranty coverage and aftersales support throughout the warranty period. All required documentation, certificates of conformity, technical manuals and asbuilt documentation must be delivered to ensure correct use, maintenance and longterm functionality of the equipment. Delivery, installation, testing and commissioning of the **charging station** must be completed within the timelines defined in the project implementation schedule. The **charging** infrastructure is intended to promote sustainable transport, encourage lowcarbon mobility and contribute to the development of regional electric vehicle infrastructure.
